

Transmitter Configuration Kit with USB Communication

ICON

ICON is a complete kit for PC configuration of all transmitters in the INOR product line, except for the Meso transmitters. The kit contains the INOR USB Interface, transmitter cables and the new software, ConSoft. Communication with the connected transmitter is established automatically, without any problems to match the PC communication port to the software.

- USB communication
- Automatic matching of communication ports
- Automatic transmitter identification for quick start up
- Diagnostic LED's on the USB Interface show the communication status
- Simple installation of configuration software and drivers for the USB Interface
- User Instructions and Installation Guide included (on USB memory stick)
- Free download of configuration software, ConSoft, and USB Interface software from our website
