## Electronic Pressure Switch

- Switching Range: 0.1... 1 to $60 . . .600$ bar
- Max. Temperature: $80^{\circ} \mathrm{C}$
- Connection: 1/4" NPT or G 1/4
- Material: Brass
- Repeatability: $\leq 1 \%$ of Full Scale

## Description

The KOBOLD PDL Series electronic pressure switch is an economical pressure monitor with a switch output that can be easily adjusted on-site by turning an adjustment screw. With the help of an spring-assisted measuring element and the use of a Hall-Effect sensor, the PDL Series electronic pressure switch can provide a maximum of two switching outputs for a given pressure. One or two switching outputs can be delivered as a normally open or normally closed (N/O or N/C) configuration. The compact size, rugged construction and wide adjustable pressure range make it an ideal pressure switch for OEM usage.

## Specifications

Housing
PDL-0: Brass
PDL-1: Anodized Aluminum
$\begin{array}{ll}\text { Upper Housing: } & \text { Plastic } \\ \text { Process Connection: } & \text { Brass, 1/4" NPT, G } 1 / 4\end{array}$

| Measuring Element |  |
| :--- | :--- |
| PDL-0: | Copper Alloy, Capsule Element |
| PDL-1: | 316L Stainless Steel, Spiral Spring |

| Maximum Temperature |  |
| :--- | :--- |
| $\quad$ Storage: | $-30 \ldots 80^{\circ} \mathrm{C}$ |
| Media: | $-20 \ldots 80^{\circ} \mathrm{C}$ |
| $\quad$ Ambient: | $-20 \ldots 80^{\circ} \mathrm{C}$ |
| Temp. Comp. Range: | $0 \ldots 80^{\circ} \mathrm{C}$ |
| Temperature Influence: | $0.4 \% / 10 \mathrm{~K}$ |
| Overload Limit |  |
| $\quad \leq 10$ bar: | $4 \times$ Range |
| $\quad \geq 16$ bar: | $2 \times$ Range |
| Load Change: | $1 \times 10^{6}$ |

## Dimensions (mm)

| Electrical Connection: | M12 $\times 1$ Plug (4-pole) (Option: 1.5 m Cable) |
| :---: | :---: |
| Switching Function: | N/C or N/O, p-switching |
| Range Adjustment: | 10...100\% of Full Scale |
| Switchpoint Adjustment: | Via Adjustment Screw |
| Repeatability: | < 1\% of Full Scale |
| Switching Hysteresis: | $\leq 5 \%$ of Full Scale $\leq 10 \%$ of Full Scale at 16 and 25 bar |
| Power Supply: | 10... 30 VDC |
| Power Rating: | Max. 100 mA (Max. 30 VDC ) |
| Protection: | IP 65 (IP 67 with Cable Output) |

Order Details (Example: PDL-0131 N2 B025)
